Guidelines for Primary Application for the JEC Fund Grant

In commemoration of the success of the Japan World Exposition of 1970, referred to below as “Expo ’70,” the theme of which was “Progress and Harmony for Mankind,” the aim of the Commemorative Organization for the Japan World Exposition (’70) (“COJWE”) is to convey the legacy and ideals of Expo ’70 to future generations. To achieve this aim, COJWE created a green cultural park in the former site of Expo ’70. Furthermore, COJWE established a fund with the revenues of Expo ’70 and has used the fund, to provide grants (JEC Fund Grants) to an approximate total of 4,150 projects since 1971, without relying on national subsidies at all. These projects, which were designed to promote international mutual understanding or stage cultural events, were considered appropriate for commemorating the success of Expo ’70, and the amount of the JEC Fund Grants offered during this period totaled approximately 18.5 billion yen.

For fiscal year 2012, the JEC Fund Grants will continue to be awarded mainly to projects relating to either the environment or the Expo Commemoration Park.

1. Projects qualifying for the JEC Fund Grant

Projects appropriate to commemorating the success of the Expo ’70 and contributing to public interest and international understanding qualify for the JEC Fund Grant. The projects include:

- (1) Projects contributing to international cultural exchange and enhancement of international goodwill
- (2) International projects in the fields of academic study, education, social welfare, medical care, and hygiene and public health
- (3) International projects designed for natural and environmental conservation

Projects falling into the above categories need to meet a certain set of conditions.

(For details, please see page 9 on conditions of eligibility.)

The upper limit of the JEC Fund Grant is specified for each type of project. For details, please see “5. Upper limits of the JEC Fund Grant.”

2. Application

Note the following with regard to your grant application.

To apply for a grant, please read this document carefully and ensure that the required documentation and information have been provided. Note that if some required documents or information are not included, your application may be rejected.

3. Post-completion evaluation

Projects receiving grant money are evaluated after their completion on how effectively and appropriately the project was carried out, and on any impact achieved including ripple effects. Evaluation procedures and results are shown on the official COJWE website.

4. Total projected grant amount for FY 2012

Approximately ¥100 million (Estimated total for projects in Japan and overseas)

5. Upper limits of the JEC Fund Grant

The amount of the JEC Fund Grant is between ¥1,000,000 and ¥30,000,000, and should account for less than half of the total project expenses applicable to the JEC Fund Grant, in principle. This means that each implementing organization is required to cover more than half of the total project expenses with their own funds, excluding other public grants, etc.

Upper limit of the JEC Fund Grant is specified for each type of project as follows.

- | | |
|---|------------|
| (1) Performance or exhibition: | ¥7,000,000 |
| (2) International conference: | ¥4,000,000 |
| (3) Purchase of books: | ¥3,000,000 |
| (4) Publication of books or film/TV program production: | ¥5,000,000 |
| (5) Invitation or dispatch of experts: | ¥5,000,000 |

(6) Purchase of equipment for learning Japanese:	¥8,000,000
(7) Purchase of equipment other than equipment for learning Japanese:	¥15,000,000
(8) Construction or enhancement of a facility:	¥20,000,000
(9) Project conducted for an objective for which the JEC Fund Grant makes an especially large contribution, e.g. exhibiting at an international exhibition, etc.	¥30,000,000

<Note> Even if the purpose of a project encompasses two or more of the above, the upper limit specified for only one of such purposes will apply.

It should also be noted that the actual amount of the grant money may be lower than the upper limit specified above, if deemed appropriate by COWJE as a result of examining the application.

6. Organizations eligible for the JEC Fund Grant

Eligibility for application is granted to foreign national governments, local governments, and other organizations carrying out projects contributing to public interest.

- Notes: (1) It does not matter whether the applying organization has corporate status or not.
 (2) Individuals and profit-making corporations cannot apply for the JEC Fund Grant.

7. Acknowledgement of COJWE funding using the Expo '70 logo or other means

To indicate that the project has been carried out with COJWE funding, make sure to show an "Acknowledgement of COJWE funding" in at least one of the following listed as (1) to (3). If the acknowledgement is not shown without fair reason, COJWE may reduce the amount of the grant money or withhold payment of the grant money.

- (1) PR materials produced for the purpose of the project (such as posters, programs and leaflets) and deliverables of the project (such as reports, books, video footage, DVDs and CD-ROMs)
- (2) Web pages
- (3) Information board (such as a signboard) of the project

The materials listed from (1) to (3) above bearing the acknowledgement of COJWE funding should be submitted to COJWE, if possible. If not possible, send photos or the like that clearly show the acknowledgement, instead.

8. Matters considered in the screening of applications

COJWE examines the applications in each category specified in the application form, considering the matters shown in the following table.

For example, if you plan to communicate the achievements of the project widely to the public upon completion (through web pages, public lectures or other means), it will be considered favorably in the screening process.

Starting with the projects in FY 2007, post-completion evaluations have been conducted as described in 3. above. For applications from those who received JEC Fund Grants for projects in FY 2007 and subsequent years, these evaluation results are used to examine applications.

This means that the implementing organization is required to temporarily pay the project expenses out of its pocket. - (7) Implementing organizations are required to cooperate with COJWE in conducting post-completion evaluations by means of providing information and detailed results of the project implementation, responding to a questionnaire, etc., upon completion of the projects. The results of evaluations of individual projects will not be made public.

(2) Instructions for filling in the income and expenditure columns in the Fund Allocation Table

- (i) The expense items in the sample form above are shown for reference purposes only and can be different from your expense items.
- (ii) Please specify which income sources are applied to which spending budgets.
- (iii) “Other grants” should be allocated to “project expenses not applicable to JEC Fund Grant.”
- (iv) Budget amount should be indicated in Japanese yen.
- (v) Please make sure that the total income amount is equal to the total expenditure amount. You are therefore required to bring the difference in amount between total income and total expenditure to zero by adjusting the amount of “own funds” or that of “project expenses not applicable to JEC Fund Grant.”
- (vi) The same amount should be entered in the “total spending budget” and “total income budget” (sections).
- (vii) The amount of the “JEC Fund Grant” (section) should be less than half of the subtotal of the “project expenses applicable to JEC Fund Grant” (section). The amount of the “JEC Fund Grant” shown in the above sample is ¥4,000,000, which is the upper limit applied to an international conference.
- (viii) Do not enter any income, including balance brought forward.

(3) Income

(i) JEC Fund Grant

The subtotal amount of the “JEC Fund Grant” should account for less than half of the subtotal of the “project expenses applicable to JEC Fund Grant.”

(ii) Own funds

If you have your own funds that can be allocated to the project, please indicate the amount of such funds, provided that such funds should be distinguished from the following incomes:

- (a) Participation fees
- (b) Sponsorship fees
- (c) Company or personal donation
- (d) Other grants

(iii) Participation fees

If income is generated from admission fees or participation/registration fees, please indicate the amount.

(iv) Sponsorship fees

If income is generated or expected to be generated from sponsorship fees or personal donation, please indicate the amount.

(v) Other grants

Please specify the name of the organization to which you have applied or are going to apply for a grant other than COJWE.

“Other grants” refer to grants offered by the Japanese national government, prefectural governments, municipal governments, and other public bodies similar in nature to these governments. The Fund Allocation Table is designed so as to prevent allocation of other grants and the JEC Fund Grant to the same expense items.

If the use of such grant is specified, please allocate the grant to the specified purpose in the budget item classified as “project expenses not applicable to JEC Fund Grant.” If no purpose is specified, please allocate the grant to the appropriate budget item classified as “project expenses not applicable to JEC Fund Grant.”

(4) Expenditure

- (i) Please be aware of the distinction between “project expenses applicable to JEC Fund Grant” and “project expenses not applicable to JEC Fund Grant” shown above when filling in each column.
- (ii) Please complete the Expenditure Break down form to give detailed information on the “project expenses applicable to JEC Fund Grant,” following the instructions shown below
- (iii) Expenditure Break down

(a) Travel expense

Please note that the upper limit of travel expenses covered by JEC Fund Grant varies depending on the region of departure and the destination of the return trip. Please refer to the following example to complete the form.

	\$50 x ¥100 x 10 persons x 3 nights	150,000
Total	-	¥1,980,000

- (iv) If “project expenses not applicable to JEC Fund Grant” include any of the following expenses, each category of such expenses should be distinguished from other expenses and shown in an independent column. While the sample form has columns for “secretariat costs,” you may use different terms for such expenses as far as such terms can clearly indicate the nature of the expense, which falls into one of the following categories.
 - (a) Expenses for secretariat personnel and agency services
 - (b) Expenses to purchase equipment for secretariat
- (v) Contingency reserve may be included in the “expenditure” column only if it is intended to cover unexpected expenses that may arise during the implementation of the project for this year. - (vi) If the project involves both personnel invitation and dispatch, specify each amount separately in the “Breakdown” column of the “Expenditure Breakdown” form as “budget for personnel invitation” and “budget for personnel dispatch.”
- (vii) If the project involves both domestic and foreign operations, specify each amount separately in the “Breakdown” and “Amount” columns of the “Expenditure Breakdown” form.
